

INTRODUCTION

The Asian-Pacific Association of Longmont (A-PAL) was created in 2010 to increase Asian presence and visibility in the City of Longmont's programs and activities. Its mission is to address the common needs of Longmont and its Asian population, to increase Asian participation in the city, and to support the vision of the Longmont's Multicultural Plan.

A-PAL's Initiatives:

- **Events:** A-PAL is committed to promoting social networking and cultural interchange through interactive multicultural events, with the support of the Longmont Multicultural Action Committee (LMAC).
- **Resource Assistance:** A-PAL provides referral services to individuals and organizations that are unfamiliar with available resources within Longmont and Boulder County, and to anyone with specific cultural and language needs.
- **Partnering:** A-PAL partners with the City of Longmont, local schools, and other cultural groups in order to educate and to serve the community.

A-PAL operates completely through volunteers. Currently, residents from ten different Asian-Pacific countries are contributing their time and talent. A-PAL welcomes volunteers who wish to contribute their time, effort, and expertise in serving the community.

You can support A-PAL by attending our events. Come talk to us. Tell us your plans, hopes, and needs. We would like to know how A-PAL can best serve the Asian community and the Longmont Multicultural Plan.
